

# Annual Management Report of Fund Performance

December 31, 2024

## Beutel Goodman Money Market Fund

# Beutel Goodman Money Market Fund

This Annual Management Report of Fund Performance contains financial highlights but does not contain the complete annual or interim financial statements of the investment fund. You can get a copy of the annual or interim financial statements at your request at no cost (contact details on this page) or by visiting our website at [www.beutelgoodman.com](http://www.beutelgoodman.com) or SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca).

Security holders may also contact us using one of these methods to request the investment fund's prospectus, proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure.

Certain portions of this report, including, but not limited to, "Results of Operations" and "Recent Developments", may contain forward-looking statements about the Fund, including its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates" and other similar forward-looking expressions. In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and forecasts about future events and are inherently subject to, among other things, risks, uncertainties and assumptions which could cause actual events, results, performance or prospects to be incorrect or to differ materially from those expressed in, or implied by, these forward-looking statements.

These risks, uncertainties and assumptions include, but are not limited to, general economic, political and market factors, domestic and international, interest and foreign exchange rates, equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events. This list of important factors is not exhaustive. Please consider these and other factors carefully before making any investment decisions and avoid placing undue reliance on forward-looking statements. The Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

# Beutel Goodman Money Market Fund

## Management Discussion of Fund Performance

### Investment Objectives and Strategies

This Fund seeks to maintain a high level of liquidity by investing in high quality Canadian dollar denominated money market instruments.

The Fund seeks to achieve its objectives by investing in a variety of instruments, such as treasury bills, short-term government and corporate bonds, commercial paper, and deposit receipts of Canadian chartered banks and trust companies having a term to maturity not exceeding one year. The Fund's average term to maturity is less than 180 days.

### Risk

There were no significant changes to the investment objectives or strategies that affected the Fund's overall level of risk during the year. The risks of investing in this Fund and the suitability of the Fund for investors remain as discussed in the Prospectus.

### Results of Operations

Money market yields decreased by 190 basis points over the January 1 to December 31, 2024, period. The Canada three-month Treasury Bill yields started the period yielding 5.05% and finished at 3.15% as at December 31, 2024.

Inflation has been the dominant investment theme for the past two years and came down to the Bank of Canada's (BoC) target range towards the end of 2024. The unemployment rate in Canada has been rising steadily throughout the year, which provided the BoC leeway to cut its policy rate aggressively in 2024 with a view to stimulating the economy. At the end of 2024, bond markets were pricing in a terminal rate (i.e., the level at which central banks end their cutting cycle) of around 2.75% in Canada. This is significantly lower than terminal rate expectations were at the midpoint of 2024 and reflects how quickly market sentiment can change.

Over the 12-month period ended December 31, 2024, Beutel Goodman Money Market Fund (the "Fund") saw its yield decrease from 5.22% to 3.38%. The average term remained stable at 84 days between December 31, 2023 and December 31, 2024 and is shorter than its benchmark, the FTSE Canada 91-Day T-Bill Index. Detailed performance is provided under the heading "Past Performance" in this report.

### Key Drivers of Performance

- The key contributors to Fund performance over the period was an allocation to longer-term debt in the fourth quarter, along with an overweight position in credit, which added extra yield.

### Portfolio Activity

- The portfolio management team (the "team") has reduced its corporate exposure, focusing primarily on higher-rated credit.

### Recent Developments

Income is the operative word in fixed income and despite recent interest rate cuts by global central banks, yields remain significantly above the lows seen in the early part of this decade. Most relevant to the Fund, we believe the central banks in Canada and the U.S. are likely to continue their easing cycles over the near term, but at a less aggressive pace. This all depends on circumstances, of course; Canada's economic prospects and inflation in the U.S. are two major factors that will likely affect central bank policy in 2025. Credit spreads will also be determined by the macro backdrop. Given the already tight corporate spread levels, we do not believe spreads will tighten much further. As a result, we expect that it will likely be a credit picker's market in 2025.

# Beutel Goodman Money Market Fund

## Related Party Transactions

Beutel, Goodman & Company Ltd. ("BG") is the Manager, Trustee and Portfolio Advisor to this Fund. The Fund pays a management fee to BG as compensation for its services. The Fund pays a fixed administration fee to BG, which in turn pays certain operating expenses of the Fund. BG as trustee of the Fund earns a fee which is paid by the Manager from the fixed administration fee paid by the Fund.

The Fund did not rely on any recommendation or approval of its Independent Review Committee to proceed with any transaction involving related parties because it did not conduct any related party transactions, except for certain inter-fund trades (if any) and the management and administrative fees as described above, as approved by the Independent Review Committee by standing instructions, and subject to regulatory requirements.

**Management Fees:** As Manager, BG is paid a management fee from each class of the Fund based on the average daily net asset value of the particular class. The fee is payable monthly, in arrears, and is calculated at the annualized rate specified for each class of the Fund as set out in the table below. Management fees for Class I units are negotiated and paid directly by the investor, not by the Fund, and, therefore, are not listed.

	Maximum Annual Management Fee Rate %	As a Percentage of Management Fees	
		Dealer Compensation %	General Administration, Investment Advice and Profit %
Class D	0.50	50	50
Class F	0.40	0	100

**Administration Fee:** The Manager receives a fixed administration fee to pay certain operating expenses of the Fund. These expenses include audit and legal fees; custodian and transfer agent fees; costs attributable to the issue, redemption and change of units, including the cost of the security holder record-keeping system; expenses incurred in respect of preparing and distributing all regulatory reports; fund accounting and valuation costs; independent review committee fees and filing fees, including those incurred by us. The administration fee may vary by class of units and by Fund.

BG, as trustee of the Fund, earns a fee which is paid by the Manager from the administration fee paid by the Fund.

# Beutel Goodman Money Market Fund

- (1) Net asset value per unit and distributions to unitholders per unit are based on the actual number of units outstanding for the relevant class at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding for the relevant class over the fiscal year.
- (2) Distributions were paid in cash or automatically reinvested in additional units of the Fund.
- (3) This is not a reconciliation of the beginning and ending net assets per unit.
- (4) This information is provided as at year end of the year shown.
- (5) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated year and is expressed as an annualized percentage of daily average net asset value during the year.
- (6) The Manager may have waived or absorbed some of the fund expenses. If this had occurred, the management fee ratio before any such waiver or absorption is listed. The Manager may terminate the waiver or absorption at any time, at its discretion. It is not known when such waivers or absorptions will be terminated.

## Past Performance

The performance returns below:

- are calculated as of **December 31** in each year;
- assume **all distributions** made by the Fund **are reinvested** to purchase additional units; and
- show the returns of the particular class of the Fund after any applicable management fees and operating expenses have been deducted, **but are not reduced by any redemption charges, optional charges or income taxes payable by you that would have reduced returns on performance.**

**Please remember that the past performance of the Fund is not an accurate prediction of future returns.**

# Beutel Goodman Money Market Fund

## Year-by-Year Returns

The bar chart indicates the Fund's annual performance for each of the year's shown and illustrates how the Fund's performance has changed from year to year. The bar chart shows in percentage terms how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.
