

# Interim Management Report of Fund Performance

June 30, 2024

**Beutel Goodman Global Equity Fund**

# Beutel Goodman Global Equity Fund

This Interim Management Report of Fund Performance contains financial highlights but does not contain the complete annual or interim financial statements of the investment fund. You can get a copy of the annual or interim financial statements at your request at no cost (contact details on this page) or by visiting our website at [www.beutelgoodman.com](http://www.beutelgoodman.com) or SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca).

Security holders may also contact us using one of these methods to request the investment fund's prospectus, proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure.

Certain portions of this report, including, but not limited to, "Results of Operations" and "Recent Developments", may contain forward-looking statements about the Fund, including its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates" and other similar forward-looking expressions. In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and forecasts about future events and are inherently subject to, among other things, risks, uncertainties and assumptions which could cause actual events, results, performance or prospects to be incorrect or to differ materially from those expressed in, or implied by, these forward-looking statements.

These risks, uncertainties and assumptions include, but are not limited to, general economic, political and market factors, domestic and international, interest and foreign exchange rates, equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events. This list of important factors is not exhaustive. Please consider these and other factors carefully before making any investment decisions and avoid placing undue reliance on forward-looking statements. The Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

## Management Discussion of Fund Performance

### Investment Objectives and Strategies

This Fund seeks long term capital appreciation primarily through investments in common shares and other equity securities of global issuers.

To achieve its objectives, the Fund seek companies whose management have consistently demonstrated a commitment to create shareholder value without undue financial leverage, creating shareholder value through the sustainable generation of free cash flow. A value approach is applied, seeking to invest in stocks which can be purchased at a reasonable price.

### Risk

There were no significant changes to the investment objectives or strategies that affected the Fund's overall level of risk during the period. The risks of investing in this Fund and the suitability of the Fund for investors remain as discussed in the Prospectus.

### Results of Operations

Over the six-month period ended June 30, 2024, Beutel Goodman Global Equity Fund (the "Fund"), Class B returned 7.64% versus 15.96% for the Fund's benchmark, the MSCI World Index (C\$). Unlike the benchmark, the Fund's return is net of fees and expenses paid by the Fund. Detailed performance is provided under the heading "Past Performance" in this report.

Save for a modest setback in April, global equity markets delivered strong returns in the first half of 2024, showing surprising resilience amid geopolitical challenges, higher-for-longer interest rates, stubborn inflation and economic growth that appears to be slowing. Performance was driven largely by a handful of stocks in the Information Technology and Communication Services sectors, leading to concerns regarding concentration risk.

### Key Contributors to Performance

- The top-performing sectors during the period relative to the benchmark were Materials, Real Estate and Utilities.
- Over the period, the largest individual contributors to Fund performance included QUALCOMM Inc., Konecranes Oyj and American Express Company.

### Key Detractors from Performance

- From a sector perspective, the Fund's holdings in the Information Technology, Health Care and Communication Services sectors were the largest detractors from the Fund's relative performance over the period.
- Over the period, the largest individual detractors from Fund performance included Shionogi & Co., Ltd., Polaris Inc. and Biogen Inc.

### Portfolio Activity

- The portfolio management team (the "team") employs a stock selection process that is based on identifying securities trading at a significant discount to their business value. The Fund's sector and stock weights are outcomes of the team's investment decisions based on bottom-up fundamentals and business quality. As a by-product of the team's bottom-up investment process, market performance and general management activity, the following changes occurred in the Fund's portfolio during the reporting period:
  - The Fund's Information Technology and Communication Services sector weightings increased over the period because of relative performance and the team's buy/sell activities.
  - The Fund's Industrials, Energy, Health Care, Consumer Staples, Consumer Discretionary and Financials sector weightings decreased over the period because of relative performance and the team's buy/sell activities.
  - Infineon Technologies AG was a new addition to the Fund.
  - The Fund's position in WK Kellogg Co. was liquidated.

### Recent Developments

Despite the size of the global equity market, many investors over the last several quarters have been focused on the performance of a handful of stocks. While we do not dispute the quality of these businesses, we do believe valuations have become stretched. Meanwhile, large swathes of the market, including numerous high-quality businesses, have been ignored, ultimately leading to one of the most extreme gaps between value and growth stocks over the past 20 years

# Beutel Goodman Global Equity Fund

## Related Party Transactions

Beutel, Goodman & Company Ltd. ("BG") is the Manager, Trustee and Portfolio Advisor to this Fund. The Fund pays a management fee to BG as compensation for its services. The Fund pays a fixed administration fee to BG, which in turn pays certain operating expenses of the Fund. BG as trustee of the Fund earns a fee which is paid by the Manager from the fixed administration fee paid by the Fund.

The Fund did not rely on any recommendation or approval of its Independent Review Committee to proceed with any transaction involving related parties because it did not conduct any related party transactions, except for certain inter-fund trades and the management and administrative fees as described above, as approved by the Independent Review Committee by standing instructions, and subject to regulatory requirements.

**Management Fees:** As Manager, BG is paid a management fee from each class of the Fund based on the average daily net asset value of the particular class. The fee is payable monthly, in arrears, and is calculated at the annualized rate specified for each class of the Fund as set out in the table below. Management fees for Class I units are negotiated and paid directly by the investor, not by the Fund, and, therefore, are not listed.

	Maximum Annual Management Fee Rate %	As a Percentage of Management Fees	
		Dealer Compensation %	General Administration, Investment Advice and Profit %
Class B	1.90	53	47
Class D	1.25	20	80
Class F	1.00	0	100

**Administration Fee:** The Manager receives a fixed administration fee to pay certain operating expenses of the Fund. These expenses include audit and legal fees; custodian and transfer agent fees; costs attributable to the issue, redemption and change of units, including the cost of the security holder record-keeping system; expenses incurred in respect of preparing and distributing all regulatory reports; fund accounting and valuation costs; independent review committee fees and filing fees, including those incurred by us. The administration fee may vary by class of units and by Fund.

BG, as trustee of the Fund, earns a fee which is paid by the Manager from the administration fee paid by the Fund.

# Beutel Goodman Global Equity Fund

- (1) Net asset value per unit and distributions to unitholders per unit are based on the actual number of units outstanding for the relevant class at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding for the relevant class over the fiscal period.
- (2) Distributions were paid in cash or automatically reinvested in additional units of the Fund.
- (3) This is not a reconciliation of the beginning and ending net assets per unit.
- (4) This information is provided as at period end of the period shown.
- (5) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.
- (6) The Manager may have waived or absorbed some of the fund expenses. If this had occurred, the management fee ratio before any such waiver or absorption is listed. The Manager may terminate the waiver or absorption at any time, at its discretion. It is not known when such waivers or absorptions will be terminated.
- (7) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal year. The higher a Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate equals the lesser of the costs of purchases and proceeds of sales of portfolio securities for the period divided by the average value of the portfolio securities of the Fund calculated on a monthly basis, excluding short-term securities.
- (8) The trading expense ratio represents total commissions and other portfolio transaction costs disclosed in the Statements of Comprehensive Income expressed as an annualized percentage of daily average net asset value of the Fund during the period.

## Past Performance

The performance returns below:

- are calculated as of **December 31** in each year and for the **first 6 months** of the current year;
- assume **all distributions** made by the Fund **are reinvested** to purchase additional units; and
- show the returns of the particular class of the Fund after any applicable management fees and operating expenses have been deducted, **but are not reduced by any redemption charges, optional charges or income taxes payable by you that would have reduced returns on performance.**

**Please remember that the past performance of the Fund is not an accurate prediction of future returns.**

# Beutel Goodman Global Equity Fund

## Year-by-Year Returns

The bar chart indicates the Fund's annual performance for each of the year's shown and for the current 6 month period, illustrating how the Fund's performance has changed from year to year. The bar chart shows in percentage terms how much an investment made on the first day of each financial year or period would have grown or decreased by the last day of each financial year or period.
