

Interim Management Report of Fund Performance

June 30, 2024

Beutel Goodman Core Plus Bond Fund

Beutel Goodman Core Plus Bond Fund

This Interim Management Report of Fund Performance contains financial highlights but does not contain the complete annual or interim financial statements of the investment fund. You can get a copy of the annual or interim financial statements at your request at no cost (contact details on this page) or by visiting our website at www.beutelgoodman.com or SEDAR+ at www.sedarplus.ca.

Security holders may also contact us using one of these methods to request the investment fund's prospectus, proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure.

Certain portions of this report, including, but not limited to, "Results of Operations" and "Recent Developments", may contain forward-looking statements about the Fund, including its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates" and other similar forward-looking expressions. In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and forecasts about future events and are inherently subject to, among other things, risks, uncertainties and assumptions which could cause actual events, results, performance or prospects to be incorrect or to differ materially from those expressed in, or implied by, these forward-looking statements.

These risks, uncertainties and assumptions include, but are not limited to, general economic, political and market factors, domestic and international, interest and foreign exchange rates, equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events. This list of important factors is not exhaustive. Please consider these and other factors carefully before making any investment decisions and avoid placing undue reliance on forward-looking statements. The Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

Beutel Goodman Core Plus Bond Fund

Management Discussion of Fund Performance

Investment Objectives and Strategies

This Fund seeks long-term capital appreciation by actively managing a portfolio primarily consisting of (i) Canadian government and corporate short-term debt instruments; and (ii) Canadian corporate long-term fixed-income securities which have a rating of at least BBB by a recognized Canadian rating agency.

To achieve its objective, the Fund invests in a diversified portfolio of Canadian government and Canadian corporate bonds of various maturities with a weighted average term of 6 to 15 years. The corporate bonds have an average credit rating of BBB or higher by a recognized rating agency. From time to time the Fund may also invest in bonds that are rated below BBB, and in other evidences of indebtedness and in exchange-traded funds.

Risk

There were no significant changes to the investment objectives or strategies that affected the Fund's overall level of risk during the period. The risks of investing in this Fund and the suitability of the Fund for investors remain as discussed in the Prospectus.

Results of Operations

Over the six-month period ended June 30, 2024, Beutel Goodman Core Plus Bond Fund (the "Fund"), Class B returned -0.31% versus -0.38% for the Fund's benchmark, the FTSE Canada Universe Bond Index. Unlike the benchmark, the Fund's return is net of fees and expenses paid by the Fund. Detailed performance is provided under the heading "Past Performance" in this report.

Canada blazed a trail during the period, albeit one largely expected by investors. At its June meeting, the Bank of Canada ("BoC") became the first central bank in the G7 to reduce its key interest rate (from 5.00% to 4.75%) since the tightening cycle began in 2022.

In April, yields in Canada and the U.S. rose in response to stronger-than-expected Q1/2024 growth and inflation data. This trend then reversed, and yields fell in May and June as economic data slowed and markets digested the prospect that the strong Q1 data may have been anomalous and potentially a result of seasonal factors. Markets then began to once again pull forward the timing of interest rate cuts and yields fell.

There has been significant divergence between Canadian and U.S. bond yields since the midpoint of 2022. This divergence increased even further in June, with Canada 10-Year Government Bond yields ending the quarter 90 bps below their U.S. Treasury equivalents. This difference has been largely driven by contrasting economic prospects and the relative interest rate sensitivity of the Canadian and U.S. economies. In June, the U.S. Federal Reserve ("Fed") did not follow the BoC's lead on cutting rates, maintaining its target range at 5.25-5.50%. The June meeting was also notable for the release of the Fed's latest "dot-plot" in the Summary of Economic Projections, which indicated just one rate cut in 2024.

Key Drivers of Performance

- The Fund's long duration positioning relative to the benchmark contributed to performance amid falling yields during May and June.
- Sector allocation contributed to performance as the Fund was overweight corporate bonds amid a tightening of spreads.
- Security selection in government bonds was roughly neutral.
- Corporate security selection contributed to performance as the selection in energy bonds and financials securities outperformed. The portfolio's selection in higher beta bonds including Limited Recourse Capital Note (LRCN), hybrid securities and high yield also contributed.

Portfolio Activity

- The portfolio management team (the "team") employs macroeconomic analysis, rigorous bottom-up credit research and proprietary risk-management tools to search for opportunities where the market has mispriced risk and reward. As a by-product of the team's investment process, market performance and general management activity, the following changes occurred in the Fund's portfolio during the reporting period:
 - The Fund's weighting in federal government bonds increased over the period while weightings in provincial government bonds and term loans decreased over the period.
 - The Fund's weighting in investment grade and high yield corporate bonds increased over the period.

Recent Developments

The International Monetary Fund is forecasting global economic growth of approximately 3.2% in 2024. We expect growth to continue to moderate in both Canada and the U.S., which should ultimately bring inflation down and allow room for central banks to reduce interest rates.

Beutel Goodman Core Plus Bond Fund

Related Party Transactions

Beutel, Goodman & Company Ltd. ("BG") is the Manager, Trustee and Portfolio Advisor to this Fund. The Fund pays a management fee to BG as compensation for its services. The Fund pays a fixed administration fee to BG, which in turn pays certain operating expenses of the Fund. BG as trustee of the Fund earns a fee which is paid by the Manager from the fixed administration fee paid by the Fund.

The Fund did not rely on any recommendation or approval of its Independent Review Committee to proceed with any transaction involving related parties because it did not conduct any related party transactions, except for certain inter-fund trades and the management and administrative fees as described above, as approved by the Independent Review Committee by standing instructions, and subject to regulatory requirements.

Management Fees: As Manager, BG is paid a management fee from each class of the Fund based on the average daily net asset value of the particular class. The fee is payable monthly, in arrears, and is calculated at the annualized rate specified for each class of the Fund as set out in the table below. Management fees for Class I units are negotiated and paid directly by the investor, not by the Fund, and, therefore, are not listed.

	Maximum Annual Management Fee Rate %	As a Percentage of Management Fees	
		Dealer Compensation %	General Administration, Investment Advice and Profit %
Class B	1.00	54	46
Class D	0.70	19	81
Class F	0.50	0	100

Administration Fee: The Manager receives a fixed administration fee to pay certain operating expenses of the Fund. These expenses include audit and legal fees; custodian and transfer agent fees; costs attributable to the issue, redemption and change of units, including the cost of the security holder record-keeping system; expenses incurred in respect of preparing and distributing all regulatory reports; fund accounting and valuation costs; independent review committee fees and filing fees, including those incurred by us. The administration fee may vary by class of units and by Fund.

BG, as trustee of the Fund, earns a fee which is paid by the Manager from the administration fee paid by the Fund.

Beutel Goodman Core Plus Bond Fund

- (1) Net asset value per unit and distributions to unitholders per unit are based on the actual number of units outstanding for the relevant class at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding for the relevant class over the fiscal period.
- (2) Distributions were paid in cash or automatically reinvested in additional units of the Fund.
- (3) This is not a reconciliation of the beginning and ending net assets per unit.
- (4) This information is provided as at period end of the period shown.
- (5) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.
- (6) The Manager may have waived or absorbed some of the fund expenses. If this had occurred, the management fee ratio before any such waiver or absorption is listed. The Manager may terminate the waiver or absorption at any time, at its discretion. It is not known when such waivers or absorptions will be terminated.
- (7) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal year. The higher a Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate equals the lesser of the costs of purchases and proceeds of sales of portfolio securities for the period divided by the average value of the portfolio securities of the Fund calculated on a monthly basis, excluding short-term securities.
- (8) The trading expense ratio represents total commissions and other portfolio transaction costs disclosed in the Statements of Comprehensive Income expressed as an annualized percentage of daily average net asset value of the Fund during the period.

Past Performance

The performance returns below:

- are calculated as of **December 31** in each year and for the **first 6 months** of the current year;
- assume **all distributions** made by the Fund **are reinvested** to purchase additional units; and
- show the returns of the particular class of the Fund after any applicable management fees and operating expenses have been deducted, **but are not reduced by any redemption charges, optional charges or income taxes payable by you that would have reduced returns on performance.**

Please remember that the past performance of the Fund is not an accurate prediction of future returns.

Beutel Goodman Core Plus Bond Fund

Year-by-Year Returns

The bar chart indicates the Fund's annual performance for each of the year's shown and for the current 6 month period, illustrating how the Fund's performance has changed from year to year. The bar chart shows in percentage terms how much an investment made on the first day of each financial year or period would have grown or decreased by the last day of each financial year or period.
